Written Comment Sheet

Clark, Lincoln, and White Pine Counties Groundwater Development Project Draft Environmental Impact Statement Comment Form

We want your comments! If you have any issues, concerns, or questions related to the Clark, Lincoln, and White Pine Counties Groundwater Development Project Draft EIS, please complete and submit this comment form. Detach this page from the newsletter, fold the comment sheet on the lines with the return address showing, tape it closed, affix postage, and mail. You may include additional pages. Please refer to the project website for the comment closing date. For your comments to be effective, the BLM suggests the following guidelines:

- Keep your comments focused on the proposed project and alternatives;
- Make your comments specific and actionable; and
- Remember that the EIS process is not a vote for or against the project; base your comments on the analysis, the data, the impacts or resources, etc.

One critical factor that has not been analyzed in this PDEIS is the ~~economic~~ financial impact that this project will have on the economy in Nevada and the rural counties affected. In the current economy, there is not an adequate financial resource identified to permit the proposed GWD projects to be initiated-much less to be completed. Deficit financing which will be necessary to fund the construction and operational aspects of this program is not in the best interest of the current residents of Nevada-they are the ones who will have to provide the funding. Also, the future impacts on residential water rates have not been analyzed.

Before including your address, phone number, e-mail address or any other personal identifying information in your comment, you should be aware that your entire comment - including personal identifying information - may be made publicly available at any time. While you may ask us to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
